

# Every life deserves a song

Services & Pricing Guide | 2026

A song captures a soul.**

# How It Works

## 01 Share the Story

Tell us about your person — their quirks, favorite sayings, the way they made you feel. Fill out our simple questionnaire online or by phone. The small details make the biggest songs.

## 02 We Craft the Music

A professional songwriter writes and records an original song built around your story. You choose the genre, mood, and feel. Every note is intentional, every lyric personal.

## 03 Keep It Forever

Receive your studio-quality song digitally (MP3 + WAV), ready to play at a service, share with family, stream online, or keep as a personal treasure. A legacy in three minutes.

# Music for What Matters Most

### ● Memorial Tributes

Honor someone who's passed with a song that captures who they truly were. Play it at the service, share it with family, listen whenever you need them close.

### ● Anniversaries

A song that tells your love story — with the details, the inside jokes, the moments only you two share. The gift that says everything words can't.

### ● Birthdays & Milestones

Not "Happy Birthday" on repeat. A real, original song about who they are and why they matter. Graduations, retirements, new babies — we write the soundtrack.

### ● Celebrations of Life

For services that focus on joy over grief. A tribute song that makes the room smile, laugh, and remember the best parts of the person they love.
